## **FORTY-NINTH ANNUAL MEETING OF THE PRESBYTERIAN HOSPITAL OF THE CITY OF CHICAGO**

---

The forty-ninth annual meeting of the Hospital Society was held in the Chapel of the Hospital on Wednesday, January, 20, 1932, at 12:15 P. M. with about 46 members and guests present. Luncheon was served.

Mr. Alfred T. Carton, President of the Hospital, presided, and Mr. Fred S. Booth, Assistant Secretary of the Hospital recorded. Instead of the usual invocation, a silent standing tribute was paid the memory of the late James G. K. McClure, D.D.

The minutes of the annual meeting held January 21, 1931, were approved without reading.

On report of the Nominating Committee and motion duly made and seconded, it was unanimously

Resolved, that the Secretary be directed to cast a unanimous ballot of the members of the Society present for the election of Messrs. Alfred T. Carton, John B. Lord, Robert McDougal, John W. Scott, Robert Stevenson, Jr., and Albert B. Dick, Jr., as members of the Board of Managers in the Class of 1935 to serve for the term of four years and until election of their successors.

Dr. Arthur Dean Bevan spoke briefly of the Department of Brain Surgery recently installed at the Hospital and introduced Dr. Adrien Verbrugghen, who comes to the Faculty of Rush Medical College and the Medical Staff of the Hospital for this work. Dr. Verbrugghen expressed his pleasure with his new appointment and spoke briefly of the work of the new department.

Mr. Asa S. Bacon, Superintendent of the Hospital, and Miss M. Helena McMillan, Principal of the School of Nursing, made their annual reports.

Mr. Solomon A. Smith, Treasurer, submitted his statement of Cash Receipts and Disbursements for the year 1931 and the report of audit for the year by Messrs. Arthur Young and Company, Certified Public Accountants, showing a deficit of \$3,982.77, after deducting \$198,116.54 for charity and educational work. The statement and report of audit were received and approved.

The President read his report which is printed separately in the Annual Report.

Upon motion duly made, seconded and carried, Article V of the By-Laws of the Hospital was amended by increasing the number of members of the Medical School-Hospital Committee from four to five, together with the President.

There being no further business, the meeting adjourned.

WILLIAM A. DOUGLASS,  
Secretary.

FRED S. BOOTH,  
Assistant Secretary.

## REPORT OF THE PRESIDENT

### TO THE MEMBERS OF THE SOCIETY:

It would be false modesty were I to refrain from inviting you to take pride in the effort made, and result attained, in conducting this Hospital, during the year 1931, substantially within the means at the disposal of the Board of Managers.

With a decline of nearly \$100,000 in gross income from patients (before allowances for free care), the cost of carrying on the Hospital has been reduced by an amount which is approximately the same as, and actually exceeds, this loss. Using percentages and the language of business, our gross business is roughly \$1,000,000; the period of depression through which we are passing has cost us a loss in gross business of 9% plus; against which savings have been made of 10% minus. In addition to these savings in hospital operations proper, the cost of our school of nursing has been reduced by over \$11,000 or 10% plus. The needy sick besieging our gates have increased our charity account for the year by about \$15,000 to a total of about \$200,000 or 20% plus of gross business. With reference to the free work, we have felt that, as a teaching hospital, we should not reduce the number of beds at the disposal of our medical staff for teaching students in Rush Medical College of The University of Chicago, and we have strained our means to perform our more comprehensive trust of affording, in the language of our charter, "surgical and medical aid and nursing to sick and disabled persons of every creed, nationality and color." It may be stated generally that our loss of gross income from patients, also reflected in 11,000 less days' treatment of patients than in 1930, has resulted from the deferring of hospital treatment by persons who are ordinarily able to pay for their care, or from the exhaustion of their funds while in hospital. Our occupancy for the year averaged 72.23%, which is above the normal average for hospitals throughout the country, but a low average for our Hospital.

The annual report of our auditors, Messrs. Arthur Young & Company shows a deficit for the year of \$3,982.77. That this deficit is not several times greater, is due to all those who are connected with this Hospital and particularly

to, first of all, our superintendent and assistant superintendent, Mr. Asa S. Bacon and Mr. Herman Hensel, and the principal of our school of nursing, Miss M. Helena McMillan, for the ability and care with which they have managed this institution;

to the members of the nursing and hospital staffs, from top to bottom, for maintaining standards of service and contributing financially through reductions in wages and salary;

to our medical staff for the highest type of unselfish and patient service to rich and poor alike, and also service to the students, while the doctors themselves have suffered severe loss of income;

to our Woman's Board for continuing to carry the responsibility of the work which they have ever cheerfully assumed;

to the churches for their support; and

to the contributors to our Centenary Fund who in this emergency have provided over \$4,000 more for our free and educational work than last year, often at a sacrifice and always notwithstanding many other most pressing demands.

The following amounts were added to our endowment fund during the year:

Toward a Child's Free Bed, from the Woman's Board-----	\$ 1,985.62
To the Mary Byrne Fund, from the Nursing School Alumnae----	1,024.25
Olivett M. Walker—Oshea and Hannah Walker Memorial-----	250.00
Charles D. Ettinger bequest (additional)-----	364.77
Lucy B. Fitch bequest (additional)-----	305.00
William P. Tuttle bequest (additional)-----	273.37
Philo A. Otis bequest-----	2,000.00
Anna Holt Wheeler bequest-----	6,000.00
Frederick Latimer Wells Fund (subject to annuities)-----	60,000.00
Elizabeth W. Skinner bequest -----	7,000.00
School of Nursing Fund (additional)-----	1,767.95
Dr. David Wilson Graham Fund (additional)-----	440.00
<b>Total -----</b>	<b>\$81,410.96</b>

Grateful acknowledgment is also made of Two Drinker Respirators, one for the children's department from Mr. C. Frederick Childs, and one for the maternity department from Mr. Edwin W. Eisendrath, at a cost of \$500 each. It is interesting to note that President Lowell, of Harvard, deemed these machines worthy of mention in his current annual report. The preliminary fund to provide improved facilities in the Hospital and Rush Medical College was increased by a gift of \$10,000 from Mr. R. Douglas Stuart. Through the generosity of Mrs. R. Harvey McElwee, a part of the income from her payment on her gift for the Robert Harvey McElwee Memorial, has been appropriated to equipment for the new department of brain surgery under Dr. Verbrugghen, who comes to the faculty of Rush and the medical staff of the Hospital from the Mayo Clinic.

Our maintenance of a school of nursing places us under an obligation to the young women who come to us for training, and gives us at least an interest in the welfare of the graduates of the school, and also in the general subjects of nursing and nursing education. Many of our graduates are suffering through lack of that demand for their services which prevailed during more prosperous times. I venture to suggest that this is not a reason for curtailing the opportunities afforded by our school for training in this important profession, but rather a challenge to us to maintain and improve the training of our student nurses, not only in technique but also in professional ideals of service, and a challenge to the nursing profession to place service above prerogative. In my last report, I called attention to the small principal amount—about \$35,000—of the endowment provided for a school which, even with the economies necessitated by adversity, cost us nearly \$100,000 in 1931. A joint committee of members of the Woman's Board, Medical Staff, and Board of Managers, has been formed to study, with our executives, the essentials of nursing education and of nursing practice in the Hospital. The nurses in our employ, with the student nurses, are sharing in the heavier burdens of this period. Graduates of the school continue to occupy positions of honor and importance in their professions and in the country at large.

Progress is being made in the relations between the Hospital and The University of Chicago. It is recognized that the advantages of the relation are reciprocal. Through Rush Medical College of the University of Chicago, the Hospital obtains its distinguished staff, and the distinction of including facilities for education and for the advancement of knowledge among its charitable trusts. Through the Hospital, the University is able

to offer clinical teaching to a much larger number of the students passing through its preclinical departments than the University Clinics on the Midway can accommodate. This period of business depression has also given further time for seeking the solution of problems which have been recognized during the more than thirty years which have elapsed since the original connection between Rush and the University, and during the somewhat shorter period since Rush became a part of the University. The original contract with Rush for the staffing of the Hospital, to which the University is now a party as successor to Rush, stands as it was written at the time of the establishment of the Hospital fifty years ago. The contract contains some undesirable technical conditions affecting the real estate on which the first hospital buildings were erected, but neither the Hospital nor, it is believed, the University now desire to be relieved of the obligations of the contract, or to renounce its benefits, with respect to medical staff.

We welcome to the Board of Managers today Mr. Charles B. Goodspeed. He succeeds Mr. Holmes Forsyth who, after many years of service, has resigned because of continued absence from Chicago.

Respectfully submitted,

ALFRED T. CARTON, President.

## ENDOWED NURSES

**T**HE purpose of this Endowment is to take care of the very sick who, during critical periods of illness and especially following serious operations, need special nursing but who cannot afford to pay for such services.

These endowments are among the most valuable that we have because human lives are actually being saved by the devoted care of these nurses. More endowments of this character are badly needed. The cost of endowing a nurse is \$35,000.00, the interest of which pays the salary of a nurse. The endowments so far established are:

The Helen North Nurse,  
The Gladys Foster Nurse,  
The Ernest A. Hamill Nurse.

## AUDITOR'S REPORT

---

**For the Year Ending December 31, 1931**

---

ARTHUR YOUNG & COMPANY  
Certified Public Accountants  
105 South La Salle Street

Chicago, December 31, 1931.

To the Board of Trustees of the Presbyterian Hospital of the City of Chicago, Chicago.

Dear Sirs:

We have examined the books and accounts of your institution for the year ending December 31, 1931, and certify that the accompanying statement of Receipts and Disbursements is correct.

The cash on hand and in bank was verified by us and the investment securities were examined and found correct.

Yours faithfully,

Arthur Young & Co.

# THE TWENTY-NINTH (29th) ANNUAL REPORT OF THE SCHOOL OF NURSING

Mr. President and Members of the Board of Managers:

The end of 1931 completes twenty-eight years of service by the School of Nursing, to the Presbyterian Hospital, in caring for its patients, and to the community, in sending out nurses qualified to care for the sick.

A grand average total of 68 graduate and 190 student nurses have been in the School, as against 72 graduates and 200 students in 1930. The Presbyterian Hospital has had an average of 57 graduates and 112 advanced students assigned to its nursing while in 1930 there were 62 graduates with 117 advanced students, in 1929 the number being 61 graduates and 118 of the advanced student group.

An average of 13 graduate nurses have been assigned to night floor duty, assuring for the patients the skill and judgment of graduate nurse service during those hours when good nursing is most needed. For bedside day service on the five floors of the private pavilion there has been an average of 12 graduate nurses on duty between seven in the morning and eleven o'clock at night, at which time the night nurses take charge. This number of graduate nurses is too small for the needs of the service and has to be generously supplemented by student service, a policy which does not aid in the desire to provide nursing care of the highest type.

The Helen North nurse has cared for 210 different patients, giving 225 days service; the Ernest A. Hamill nurse for 229 patients in 239 days; the Gladys Foster nurse for 227 patients in 258 nights. These three nurses are of inestimable value to the Hospital and to the Medical Staff and add greatly to the comfort and good nursing care of the patient.

A daily average of 73 graduate special duty nurses accomplished in the Hospital 26,786 days of special duty, a lesser amount than the average of 87 nurses doing 31,970 days in 1930 and 90 nurses with a record of 33,599 days in 1929. To somewhat offset this, the number of our graduates sent into private homes direct from the Hospital has increased from 192 in 1929, and 154 in 1930 to 224 in 1931.

To the Central Free Dispensary with its average per day of 490 patients, the School has contributed 2,274 days service to the various clinics, a total of 56 students with a daily average of 6 being on duty in the Dispensary.

To the Out-Obstetrical Department of Rush Medical College 2 student nurses have been assigned daily, a total of 56 giving 773 days and making 2,240 calls on the 971 patients in their district homes. The Prenatal Clinic of Rush Medical College has had a total of 57 students to help with its 1,252 patients, these nurses giving 816 days service. The various other clinics of the Rush Medical College have been cared for routinely.

In the Examining and Admitting Rooms of the Presbyterian Hospital an average of 53 patients daily and a total of 19,345 yearly have been given nurse service, one graduate and from one to two student nurses being assigned to that duty.

The 46 daily and the total 14,294 yearly operations which have been taken care of in the Operating Rooms have required a daily average of 7 graduates and 15 student nurses—58 students having spent 5,456 days in that department.

At the Durand Contagious Hospital, 29 of our students have secured valuable experience in contagious nursing; at the Chicago Lying-in Hospital, 4 in obstetrics.

The Chicago Visiting Nurse Association has taken 7 of our students

for a two months period and the Infant Welfare Society 6 for a similar period.

While many letters of inquiry from interested young women have been received and approximately 222 personal interviews held, only 183 formal applications have been allowed, of which 90 were accepted. The class entering in the spring numbered 29 and the fall division, 47; during the year 26 students dropped out and 63 were graduated.

The all important health problem has received much attention from Dr. George F. Dick and Miss Van Horn, the Health nurse. Careful selection accompanied by immunization, remedial assistance and the development of health consciousness and responsibility in the student are bringing gratifying results. A health report for the year, too detailed to be inserted here, is on file with other school records and as it presents a feature of our school problems, with an important economic aspect, is worthy of careful study.

The announcement of the School published annually gives the course of instruction offered the student. It is based on the experience of the past twenty-seven years of the School, as well as on various national studies made on the preparation required for the graduate nurse to meet an exacting public. It also takes into consideration the fact that the discriminating young woman seeking a school of nursing and having many from which to select must be assured of a worth-while curriculum in order to draw the type acceptable to this institution. While observing every possible economy during the year just passed, the utmost effort has been made to do most careful and painstaking teaching, with the desire to improve not only the nursing care given to our own hospital patients but to patients later nursed by our graduates elsewhere.

To strengthen the course it is recommended that the experience in contagious nursing, now an elective, be given to each student, that suitable orthopedic clinical work be secured and that public health nursing be included. The acceptance of these recommendations will necessitate the employment of an increased number of graduate nurses in the Presbyterian Hospital and a possible rearrangement of the present curriculum. A larger employment of graduate nurses in the Hospital would allow a sterilized nursing service for the patients, while sending our graduates into the field lacking knowledge of any branch of nursing is not satisfying and possibly not justifiable.

There has been lost from the staff this year three members who have given long and faithful service: Miss Edith Stehle, to do further study at the University of Wisconsin; Miss Mary H. Cutler, to take charge of the Jewish Hospital School of Nursing, Cincinnati; Miss Alice Snow, for a well-earned rest.

The interesting experiment of an exchange head nurse with the University of Wisconsin School of Nursing is now being tried out. One of our graduate nurse staff is receiving three months' experience in Orthopedic work at the new Orthopedic Hospital in Madison, while we, in turn, are placing the University of Wisconsin nurse in those departments of the Presbyterian Hospital requested by the head of the Wisconsin School. Both Schools are hoping that this is a means of staff education which may prove valuable.

With the class graduating in 1931, our graduate body reaches 1,181, and it is an interesting fact that, at the present time, the offices of President, of Vice-President, and of two executive secretaries of the American Nurses' Association are all held by graduates of this School, while another national position, that of Assistant Editor of the American Journal of Nursing, is filled by one who calls this School her Alma Mater. Many are holding important positions in institutional and in public health nursing organizations and a large, unheralded group are doing quiet but excellent work in various parts of the world.

The following is an approximate roll call: private duty nursing, 253; in institutional positions, 178; in public health work, 105; in work allied to nursing, 20; married, 510; dead, 37; unoccupied or work unknown, 78.

The Alumnae still endeavors to meet its obligations, not only to its members, but to the School. It has made its yearly contribution for professional magazines to the School Library; turned in \$943.60 to the School Endowment Fund from its 1931 dance; is working for a sick benefit and loan fund; and is enlarging the Mary Byrne Endowment Room Fund which now reaches \$24,417.60.

The School Endowment Fund, increased by small contributions and the 1931 concert proceeds of \$508.35, totals \$35,906.30 and the Gladys Foster Free Ward Nurse Fund augmented by the generous bequest of Mrs. Anna H. Wheeler has reached \$24,603.99.

During the year the Rush Medical College has shown a generous attitude by cooperating in special instruction for three of our graduates, who, preparing for work in India and China, require a knowledge of midwifery. This speciality is most difficult for nurses to secure and in the past some of our graduates have gone to London for what they needed. The privilege granted is exceptional on the part of a medical school, one thoroughly appreciated by the nurses participating and by this School and is a contribution of value to the Missionary Board sending these nurses abroad.

Again we have many to whom our best thanks are due and while only a few may be named, we are grateful to all. The members of the Medical Staff of the Hospital and of the Dispensary continue to care for our sick nurses when called upon and to teach, through lecture or clinic, and for both of these contributions, given freely and in abundance, we are thoroughly appreciative; to Dr. George F. Dick and his associates, we are greatly indebted for continuous interest and for uncountable time given to our student group; to our own graduate nurse staff and to the Alumnae for loyal support; to the class of 1932 for landscaping the School court; to the Woman's Board for innumerable thoughtfulnesses; to Mrs. Ernest A. Hamill for again taking care of the nurses' Christmas; to Mr. Bacon and his staff and to the Board of Managers of the Institution.

Respectfully submitted,

M. H. McMILLAN,

Director of the School and  
Superintendent of Nurses.

March 22, 1932

To the Board of Trustees of  
The Presbyterian Hospital of the City of Chicago,  
Chicago.

Dear Sirs:

As requested, we have examined the accounts and records of the Woman's Auxiliary Board of the Presbyterian Hospital for the year ended December 31, 1931, and have prepared therefrom the attached statement of cash receipts and disbursements, and list of securities held at December 31, 1931.

We examined all canceled checks submitted in support of cash disbursements and found them correctly recorded in the books. Income from securities was duly accounted for.

We verified the cash balance at December 31, 1931, by reconciliation with the balance confirmed direct to us by the depository. Investment securities were confirmed to us by the Trustee.

Yours faithfully,

ARTHUR YOUNG & CO.

THE PRIVATE PAVILION
